Our SL25 provides gourmet quality coffee incorporated within the most compact tabletop barista styled machine of the Maas International range. The uniquely stylish design enhances the great coffee drinks produced. Though compact in size its robust construction makes it ideal for low volume environments that demand exceptional drink quality. With a choice of four different brewing methods you can match the equipment to your specific environment. The SL25 can make the highest quality coffee available in the marketplace. The wide range of products will soon make the SL25 a firm favourite in your environment. Other features of the SL25 include a jug facility for hospitality or high volume environments. The SL25 can be supplied with or without a base cabinet.
