Our SL300 provides gourmet quality coffee incorporated within a fully automated tabletop barista styled machine. The uniquely stylish design enhances the great tea and coffee drinks produced by this 300 cup capacity system. Though compact in size its robust construction makes it ideal for moderate to high volume environments that demand exceptional drink quality. With a choice of four different brewing methods you can match the equipment to your specific environment. The wide range of products will soon make the SL300 a firm favourite in your environment. Other features of the SL300 include a jug facility for hospitality or high volume environments.
