Our SL50/SL200 provides gourmet quality coffee incorporated within a compact tabletop barista styled machine. The uniquely stylish design enhances the great coffee drinks produced. Though compact in size its robust construction makes it ideal for moderate environments that demand exceptional drink quality. With a choice of four different brewing methods you can match the equipment to your specific environment. The SL200 has capacity for 200 cups and can make the highest quality coffee available in the marketplace. The wide range of products will soon make the SL50/SL200 a firm favourite in your environment. Other features of the SL50/SL200 include a jug facility for hospitality or high volume environments.
